

Trail Usage Report – 2024

Michiana Area Council of Governments maintains three trail usage counters on trails in Elkhart and LaGrange Counties, the Middlebury - Pumpkinvine Trail, Shishewana - Pumpkinvine Trail and Millrace Trail. Data for a fourth counter, Elkhart County – Pumpkinvine Trail, were incomplete because of a malfunction. The counts for pedestrians and bicyclists recorded by each counter in 2024 are analyzed in this report.

Most trail users travel in one direction and then return so the numbers counted should be divided by two for estimating the number of people using the trails.

Data for additional MACOG counters are available at:
